DETAILED ACTION

1. This communication is in response to application's amendment dated 8/10/2007. The amendment of claims 1, 3, 4, 6-8, 10, 11, 13, 14; and the cancellation of claims 2, 5, 9, 12 and 15-29 have been entered.

Response to Arguments

2. Applicant's arguments with respect to claims 1, 3, 4, 6-8, 10, 11 and 13 have been fully considered and are persuasive. The rejections of claims 1, 3, 4, 6-8, 10, 11 and 13 have been withdrawn.

Allowable Subject Matter

3. Claims 1, 3, 4, 6-8, 10, 11, 13 and 14 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 1, the prior arts of record fail to teach or disclose a network of remote sensing node assemblies adapted for immersion within a liquid environment as claimed in claim 1, wherein each node has a sensor element; and a first and a second of the sensing nodes assemblies to function, respectively, as a first and second parent node, each within an acoustic transmission range with at least one other of the sensing node assemblies; each of said respective node assembly is adapted for processing said sensor information collected about said liquid environment by the sensor element of said respective node assembly; and a third one of the sensing node assemblies further

adapted for transmitting said sensor information collected by said third node assembly to a remote host.

Regarding claim 14, claim 14 has been rewritten into an independent form including the previously indicated allowable subject matter. Therefore, claim 14 is now allowed.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
